With sort and dampen (once the fixture has been switched on and has cooled down). Do not touch the fixture until it has cooled down. This product should only be replaced by the manufacturer or his service representative or similarly qualified person.

Delivery: Deliver a used product to the place/collection point, where the product is returned to the distributor or the manufacturer at the collection points.

Preparing for installation: 1. Elements necessary to install the lamp: a screwdriver and hollow saw. 2. Lamps should be installed with the power off.

Installation procedure (see the illustration): 1. At the place where the product is to be installed, mark the position of the mounting. 2. Mount the product in the made hole by means of mounting springs. 3. Connect the fixture to the main cable by means of a cable (recommended cable: OMVp 2 x 1.5 mm² or OMVp 3 x 1.5 mm²) as indicated. (NOTE! The cable is not shipped with the fixture). 4. Make sure that the product is correctly installed.
